Tom Sanford, assistant city marshal, is making a splendid record as a peace officer, and we congratulate the City Dads who could search Nogales with a fine tooth comb, then not find his equal. When it comes to arresting "bad men," from murderers to common sneak thieves, Thomas is there "like a duck."

Long, heavy freight trains pulled by three monster locomotives, are no unusual sight in the Nogales railway yards these days. It is said that the Southern Pacific company have appropriated \$64,000 to be expended in the local yards, which with its big steam shovel in operation and an army of workmen grading and laying side tracks, etc., presents a picture most pleasing to the sight of all Nogales—especially the real estate barons, who are daily growing rich.

Ex-Sheriff Charley Fowler, who for nearly two years has been in the employ of the Oieneguita Copper Company, has captain of the big mounted escort between Minas Prietas and the mines, is enjoying a visit at his pleasant country home just north of the city a couple of miles. He will return south in a couple of weeks, and again take charge of the big freight outfit, peace treaty with the Yaquis notwithstanding.

Next week the actual work of remodeling the Methodist church and building the extension, etc., will commence in earnest, enough funds having already been subscribed to guarantee the success of the undertaking, thanks to the good ladies who have been collecting money for this purpose. A tower thirty-two feet high will be erected, as well as a ten foot stone extension. Handsome large gothic stained windows will be put in and the church otherwise remodeled and beautified, as per plans recently decided upon by Pastor Mc Cain and members of his congregation who had the matter in charge. To all who have aided financially, Mr. Mc Cain is most grateful.

President William McGee, of The Otate Gold Mining Company, is back from his company's mines in Sonora, mention of which is made on the first page. The captain brought from the mine a large chunk of "bonanza" gold ore, in which large pieces of native gold can readily be seen without the use of magnifying glasses. The rich sample of which there are hundreds of tons where it came from, is on exhibition in this office, and in future will be a valuable acquisition to THE VIDETTE mineral cabinet, one of the finest in Arizona. Some of the ore taken from the "bonanza" streak, which Captain McGee says is twenty-six feet wide, will assay way up in the thousands of dollars per ton.

Tuesday Manager and Mrs. S. F. Johnson, of the Four Metals Mining Company, were visitors in the city, returning to their mining camp Wednesday morning. There are at present several hundred souls in the Four Metals camp which is situated in one of the most delightful spots in America. Mr. and Mrs. Johnson are expecting a large party of Four Metals officers and stockholders from the east next week and are making extensive arrangements to entertain them. A grand ball in the school house, is on the programme. Everybody anticipates a fine time. They'll not be disappointed.

Mr. I. Burgoon, the haberdasher, has decided to return to his first love—mining—and has accepted the position of superintendent of the fine gold property situated in the Magdalena district owned by the Yaqui River Consolidated Gold & Copper company, in which he has become largely interested financially. The property is showing up so well as development work progresses, that Mr. Burgoon, who has devoted most of his years to practical mining, is anxious to be on the ground to personally superintend the work of mining and shipping the ore, some of which is high-grade stuff running up into the hundreds of dollars per ton. During Mr. Burgoon's absence at the mine Mr. William Smith, secretary of the Y. R. C. G. & C. Co., will manager the store. We wish Superintendent Burgoon all sorts of good luck; may his mine become a world-beater.

Mr. A. A. Oberg, millman at the Rey del Oro gold mines in the Magdalena district, Sonora, owned by the Tribune Gold Mining Company, after enjoying a few days in the city with his friends, returned to the mines Thursday morning, being accompanied by Engineer Burkman, who is in the employ of the Black Mountain Mining Company. Superintendent Jim Bent of the Rey del Oro mines, who has been personally superintending the repairing of important parts of the big stamp mill, built and erected by the Arizona-Sonora Manufacturing Company, has also returned to camp taking the machinery with him. No place in the United States can mine men operating in Sonora have their machinery repaired quicker or better than right here in Nogales, at our mammoth manufacturing company, of which Roy & Titcomb, Inc., are agents.

Thursday morning Bishop Jones, who for thirty years has been prominent in helping to build up the beautiful city of Mesa, in the Salt River valley, accompanied by his wife departed for home.

This was the first time since going to the Salt River valley, that Bishop Jones has ventured so far from home. He expressed himself as much pleased with Nogales, the people and our wonderful climate.
